

Jenway Fixed Price Repair - Terms & Conditions of Sale (additional to Cole-Parmer standard T&C's)

- Fixed price repairs only charged if the unit is under 10 years old and out of warranty
- Units older than 10 years are not repaired
- Any damage caused to optical components by tampering (scratches / finger prints) will incur extra charges
- Any transit damage for shipping a product in non-Cole-Parmer packaging will incur an extra charge
- Warranty will be given on repaired parts for one year
- If on inspection it is not possible for Cole-Parmer to repair the unit, it will be returned FOC and all money paid for the repair will be returned
- Fixed price repairs must be paid for or an order number provided before commencement of repair
- If a unit is received and is not paid for within 3 months of receipt the goods will be disposed of
- A calibration certificate must be requested and paid for if required, as calibration certificates are not supplied as standard
- All freight charges are payable by the customer, a double freight charge will be applied for units where we supply the product packaging
- Fixed price repairs cover the main instrument and lamp, not any of the listed accessories - see below.
- Equipment must have been used under normal laboratory conditions, as per the Jenway warranty policy
